

## OUR CLIENTS

### SAMPLES

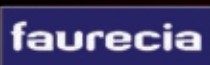

Automotive industry and Home appliance

### CUSTOMERS

Automotive industry, Aeronautics, Home appliance

- Groupe CAHORS (MAEC)
- DELMON INDUSTRIE
- EATON
- FAURECIA
- LEGRAND
- LISI
- MANN + HUMMEL
- RIETER
- SAFT
- TIMKEN
- TUYAUTO
- Suppliers of PSA, RENAULT, VW

## SOREM : TWO SITES

## HOW TO CONTACT US

With its head office in Ussac, France, SOREM operates 2 production sites : Ussac, Fr and Liberec, CZ. SOREM cz includes a business unit for customers located in Central Europe (CZ, SK, PL, etc.).

### ■ SOREM SAS (HEAD OFFICE)

With over 30 years of experience, SOREM sas designs and manufactures stamping dies. This site also produces metal parts on automated lines from 100T to 500T. The company is certified ISO 9001. The design office supervises the manufacturing of new tooling and equipment for the group.

### ■ SOREM CZ, SRO

Also certified ISO 9001, SOREM cz manufactures metal components for the automotive industry. Equipped with all processes needed in the field (automated and manual stamping, resistance welding, riveting by press or orbital), the company's assets are quality, flexibility, and low operation costs.

## CUTTING STAMPING ASSEMBLY

SOREM Group is a manufacturer of metal components for the automotive industry, aeronautical and home appliance industries.

Our expertise ranges from concept, press die design to parts manufacturing.

- LOCATIONS IN FRANCE AND CZECH REPUBLIC.
- RECOGNISED KNOW-HOW.
- EXPERTISE FROM DESIGN TO MANUFACTURING.

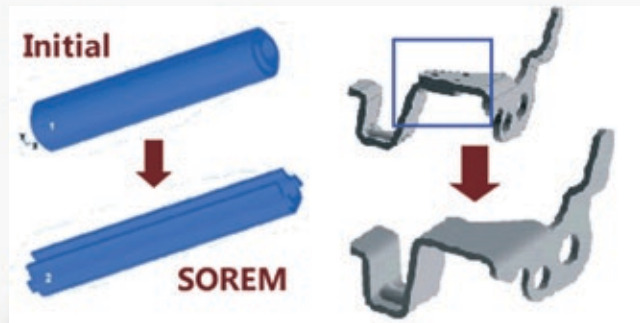

- CO-DEVELOPMENT.
- PRESS DIE DESIGN AND MANUFACTURING.
- PRODUCTION ON PRESSES AND SPECIAL MACHINES.

- WRITE TO US: [sorem@sorem-group.fr](mailto:sorem@sorem-group.fr), [info@sorem.cz](mailto:info@sorem.cz)
- VISIT US: addresses on last page
- KNOW US: [www.sorem-group.fr](http://www.sorem-group.fr) - [www.sorem.cz](http://www.sorem.cz)

## SOREM COMPETENCIES

# CO-DEVELOPMENT

With over 30 years of supplying automotive, home appliance, aeronautical industries, we offer a full range of services from concept to launch. While our core business is stamping, we also take responsibility for the post-stamping operations such as assembly, de-burring and finishing processes. With its excellent experience and proven know-how, SOREM provides its customers with outstanding product quality in an efficient and cost-effective manufacturing environment.

Our technical services (design, engineering and manufacturing) carry out preliminary work with our customers' R&D departments (design offices), in order to reach the most convenient solution in terms of cost and quality. During this phase we also optimize the feasibility of the products so as to avoid manufacturing difficulties i.e. significant costs and delays.

## SOREM

# TOOLING

We are specialized in the design and manufacturing of progressive stamping dies for 100-ton to 500-ton presses.

We manufacture the toolings for a production in our production sites or in our customers.

We manufacture the tooling in-house or at our long-term partners in Czech Republic with whom we share our know-how.

Our production team consists of dies technicians experienced in machining and programming, who work either, to your your progressive die design standards or our high standards. Our toolmakers are involved in the production process from the design phase to the tooling setting phase on our tryout presses.

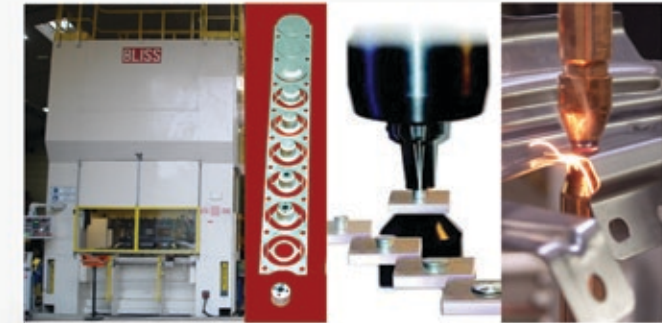

## SOREM

# PRODUCTION

Our production equipment consists of :

- Stamping presses (up to 500 tons).
- C-frame presses (cutting, bending, riveting).
- Special machines (tapping machines, orbital riveting, etc.).
- Spot welding.
- Manual assembly.

Our investment policy gives priority, not only to equipment, but also to human capital, in order to achieve excellence particularly in quality.

Our manufacturing processes (e.g. progressive die strip layout) are optimized in order to reach the best technical solution in terms of quality and cost-effectiveness.

Our production equipment meets European requirements in terms of safety and ecology. Our production sites are certified ISO 9001:2008.
